## Product Overview

IG Masonry Support offers a professional brick-cutting and bonding service providing an extensive range of standard and non-standard brick specials from our state-of-the-art Brick Cutting Facility in Overseal, South Derbyshire. These services are offered as a stand-alone service for bricks to be utilised onsite or on our brick slip systems.

Arch Bricks are used to provide both practical and aesthetic features in construction projects. Features include semi-circular, bullseye, segmental and decorative arch units. The classic arch sets illustrated here are a small selection of what we can provide. We can also manufacture bespoke arches to meet the specific requirements of your projects.

## Arch Brick Variations
