

# Technical Data Sheet

# Reveal Support Plate

## Product overview

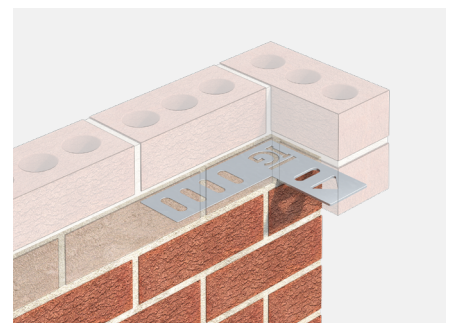

Reveal Support Plates are building aids and are designed to support the first few bricks in a full brick (215mm and 327.5mm deep) window reveal during construction.

IG Masonry Support's Reveal Support Plates are manufactured from 304/304L Austenitic Stainless Steel (1.4301/1.4307) or 316/316L (1.4401/1.4404) on request.

This product is designed for bonded masonry only.

## Enhanced features

- Stainless steel - A1 fire-rated material
- Aids construction of window reveals and brick piers
- Suitable for bonded brick patterns i.e. stretcher and flemish
- Simple specification
- Quick and easy installation

## Installation

The Reveal Support Plate is a building aid and applied loads should never exceed 0.15 kN. Higher capacity plates for different reveal depths and stacked bond patterns are also available and are designed to order.

## A1 non-combustible material

All IG's Reveal Support Plates are manufactured from 304/304L Austenitic Stainless Steel (1.4301/1.4307) or 316/316L (1.4401/1.4404) on request. Stainless steel is considered A1 fire-rated without the need for testing in accordance with the guidance of the European Commission Paper 96/603/EC as referenced in BS EN 13501-1:2018.

## Specification clauses

IG Masonry Support's Reveal Support Plates are ex-stock products suitable for 215mm and 327.5mm reveals.

Full specification data can be found on [NBS Source](#).

## Sustainability

IG Masonry Support's Reveal Support Plates are certified by BRE's Verified Environmental Product Declaration Scheme in accordance with the requirements of EN 15804:2012+A1:2013 and BRE Global Scheme Document SD207.

Full environmental data can be found on [IG Masonry Support's Statement of Verification \(BREG EN EPD No 000458\)](#).

## ISO 9001:2015

IG Masonry Support has strict control measures to ensure the highest quality of product and manufacturing. The company is certified by the BBA (British Board of Agrément) in accordance to BS EN ISO 9001:2015 and EN 1090-1:2019.

## Installation training

Correct installation is essential for the success of each project. Therefore, IG Masonry Support have made every effort to help installers by creating an [easy-to-use installation guide for Reveal Support Plates](#).

## Specifying and ordering

IG Masonry Support's designers and engineers provide full technical assistance for the Reveal Support Plate product, tailored to the requirements of each project.
