

Modern Slavery and Human Trafficking Statement

IG Masonry Support is committed to trading ethically, with zero tolerance for Modern Slavery. We are committed to ensuring that there is no Modern Slavery or human trafficking in our supply chains or in any part of our business.

This is IG Masonry Support's statutory Modern Slavery and Human Trafficking Statement. The statement will be reviewed and published annually.

About our business and supply chains

IG Masonry Support has combined experience with innovation to design and manufacture the most practical and advanced range of stainless steel masonry support products and revolutionary brick slip soffit systems for the construction industry.

We operate from three manufacturing/distribution sites in Swadlincote and Overseal, South Derbyshire and Cookstown, Northern Ireland.

Policies and due diligence

We have in place systems across our business to:

- Identify inappropriate employment practices
- Identify and assess other potential risk areas
- Mitigate the risk of slavery and human trafficking occurring
- Protect whistle-blowers

Assessing the risk of modern slavery

Our approach to Modern Slavery is consistent with our values which explicitly include worker health, safety and employment rights. We have reviewed our exposure to risk of Modern Slavery across all aspects of our business, and have focused on two key areas:

Direct, agency and temporary employment practices; including temporary and agency employment. All of our direct employees are paid, as a minimum, in accordance with the Modern Slavery Act 2015 and relevant UK legislation, this is kept under review. We insist that all agency providers are able to satisfy us that staff all have written employment contracts, have not had to pay for the opportunity to work, and are legally able to work within the UK.

Material suppliers and service providers; to ensure that all those in our supply chain and contractors comply with our values, we review our agreements with suppliers and contractors to ensure compliance with anti-slavery measures. We are committed to working with suppliers to support necessary improvements, however action is taken when suppliers and subcontractors are not prepared to make necessary improvements. We are pro-active in ensuring that we are addressing any risk and ask our workforce to remain vigilant. We believe the business has a low overall risk of modern slavery in both our own operations and in our supply chain.

Whistle-blowing

Employees, sub-contractors or suppliers who become aware of possible unethical or illegal behaviour are to raise the matter with their manager or alternatively refer the matter to the Managing Director of IG Masonry Support.

Training and awareness

We provide training for all senior management and other key employees, particularly HR and purchasing teams, and raise awareness for all employees through internal communications channels.

Effectively addressing Modern Slavery risks

We will review our performance in addressing modern slavery risks, and will publish our performance in our annual Modern Slavery Statement.

In forthcoming statements on Modern Slavery we intend to report on our progress using the following key performance indicators:

- Number of Modern Slavery cases identified
- Number of whistle-blowing cases raised
- The number of identified key employees trained on Modern Slavery

The Chief Executive Officer of Keystone Group holds overall responsibility for these policies, with accountability held by the Managing Director of IG Masonry Support and other Managing Directors for each business unit within the Group.
